To: Optometrists and General Practitioners  
From: The Vision Centre Day Surgery

November 2014

Many of you have referred patients to the Vision Centre since we opened in 2000 and have a full awareness of our clinical services. We thank you once again for your continued support. There are, however, Doctors and Optometrists who may be new to the Gold Coast or have not referred patients to us previously to whom we would like to outline the quality, depth, and availability of our services through our consulting and Day Surgery operation. Our Doctors are shown on the right and key personnel below so you can put name to face.

The Vision Centre Day Surgery has been operating at 95 Nerang St. for over eleven years under the direction of the same Doctor-owners and key personnel. We are not the Vision Group, which is a publically listed corporation. The purpose built Day Surgery has been fully credentialed during this time, firstly with ACHS and now ISO 9001.

All operating Ophthalmologists and Anaesthetists are licensed, and credentialed under our rigorous governance requirements. Our surgical services cover most facets of contemporary Ophthalmic surgery. We consider our Ophthalmic surgeons to be outstanding and our surgical outcomes exemplary. Vision Centre Day Surgery is superbly equipped for latest technology eye surgery. We recently added an Alcon Constellation advanced Phaco/Vitreotomy system and a new Zeiss OPMI® Lumera 700 Microscope; we offer a range of refractive IOL implants to our refractive patients and plan to offer the new Laser Cataract surgery in the near future.

The Day Surgery's customer service. The systems and processes in place ensure that once patients make contact with a single phone call, that they are professionally managed in a stress free manner. Processes are continually refined and upgraded to ensure patients are fully informed and included in their care plan, as well as co-managing with their own Doctors and Optometrists.

We are aware of the impact of fees, and seriously pursue value for money for your patients. The Day Surgery has contracts with all major health funds and the Department of Veteran Affairs and deals directly with these organisations to obtain benefits on behalf of all insured patients. Fees offered to uninsured patients are equal to or better than those offered by any other Hospital or Day Surgery on the Gold Coast.

Should you have any concerns or require further information on any aspect of our Day Surgery operation please call Fran Deakin (Manager – Vision Centre), Judy Henderson (Practice Manager – Level 1) or Lisa Moran (Administration Services Manager – VCDS) on 55 284 800. Our Doctors are always happy to discuss your patient's care.

**Dr Roger T. Welch**
